Some New Things in Furniture and Carpets at

CHAS. G. JURGENS SON

There's no style in Furniture and Carpets that isn't shown in our immense establishment, and for the very reason that other houses have bought lightly for this fall we've bought heavily. There's no such thing as prices going down, because manufacturers are not making up any more goods than they can immediately sell, and there's not a reputable manufacturer in our line who has any surplus stock. But with a foresight born of 30 years' experience doing business we bought our fall stock last spring when manufacturers' surplus stocks were large and they were scared out of their boots---at our own prices---and now we cordially invite you to share with us the profits in over \$100,000.00 worth of Furniture and Carpet bargains.
